

Performance assessment

A poorly prepared assessment

Supervisor, *thinking*: OK. I have to fill out my student's evaluation, but where did I put the documents I got 5 weeks ago?

Supervisor, *thinking*: Ah, here they are. I'll just take a quick look at them. Hmm... Consider the architectural barriers...

Supervisor, *thinking*: I never understood if this was a criterion or an indicator, but she was a good student. 4 out of 5 should be okay.

Supervisor, *thinking*: OK, now on to her objectives...yeah I'm not sure if they're really measurable so let's just say they're OK.

Final Evaluation - Meeting

Supervisor: I gave you 3s and 4s out of 5 on everything! You met your objectives.

Supervisor: Your internship went really well, good luck on your next one!

Intern: Ah... OK
